Inspera Assessment was updated on 12th April 2019

The update took place during the night CET. Next release is scheduled 3rd May, with a following release webinar Tuesday 7th May 13.00.

In the meantime, have a happy Easter!

The Inspera Team

Heads up

SEB version 2.2 for Windows is no longer supported

Supported versions for Windows are now:

- 2.2.3 (Recommended)
- 2.2.2
- 2.2.1

Please note. The manual SEB settings wizard is no longer available in the Deliver tool.

New feature

Individual end time

Activation required. Included in all plans.

Individual end time is a new, optional candidate field that can be edited in Deliver and Monitor. It improves management of tests where students have separate deadlines, such as thesis submissions. It can also be used as an alternative to extra time in cases where it makes more sense to set a specific deadline directly rather than calculating deadline in minutes or hours relative to standard end time.

How it works

When defined, individual end time (date and timestamp) overrides standard end time for a given candidate. If Individual end time is not set (or removed), the standard end time applies as normal. Any planned and/or incident **extra time** is added to individual end time. Editing individual end time will not make any changes to extra time.

Candid	lates				33 -	
Q Search candidates Progress: All - ID Status Progress - Warnin			: All 👻 Test status: All 👻 Inc	dividual end time	More filters + Filters 1 D	
			Clear filter Individual end time:		Q in Select all Ø Select none	
•	11 hours e	9:11 PM Submitted	Yesterday	•		
					Individual end time	
		9:11 PM Submitted	2 Ope boo		Minutes spent	

New column and time-filter in Monitor available

Individual end time can also be used in **group exams.** The latest deadline within group is applied to all members of the group and automatically updated whenever members are added or removed. In tests with **auto-submit** enabled, responses are automatically submitted when individual end time is passed.

Individual end time can be set individually and in batch in Deliver and Monitor.

Taking a test with individual end times

Given that a candidate has an individual end time defined, this time stamp is then replacing the standard test-end time in the student dashboard and during the test. No other, visual changes take effect.

Individual end time in student dashboard

Other improvements

Custom identifiers

Now allowing external systems to identify response variables for all question types.

Excel grades import

Improved support for numeric candidate ID fields in Excel

GeoGebra

Upgraded to latest GeoGebra version 5.0.526.0.

Extra time in group exams

We increased security in group exams by automatically updating test end time for remaining group members upon changes in group memberships.

Improved handling of empty explanations

Now blocking graders from sending empty explanations or marking them as ready.

Improved importing of taxonomy

Better handling of duplicate taxonomies

File attachment indicator in Monitor

Fixed issue with paper clip icon wrongly visible after removing attachment from candidate.

FS - Improved performance for listing available test

To speed up initial listing of test available in FS, the default timespan for has been updated from "- 3 months > + 6 months" to "-1 week > + 5 months".

FS - Non-anonymous tests

Transferring grades in non-anonymous tests is now supported

FS - Grade transfer action

Fixed issue with button not hidden after transfer had been completed.

Postponed:

Appeals

Issue with marks and grades from primary assessment round wrongly hidden from graders when an appeal round starts has been postponed. Apologies for the inconvenience.
